

Instructions to run the Project.

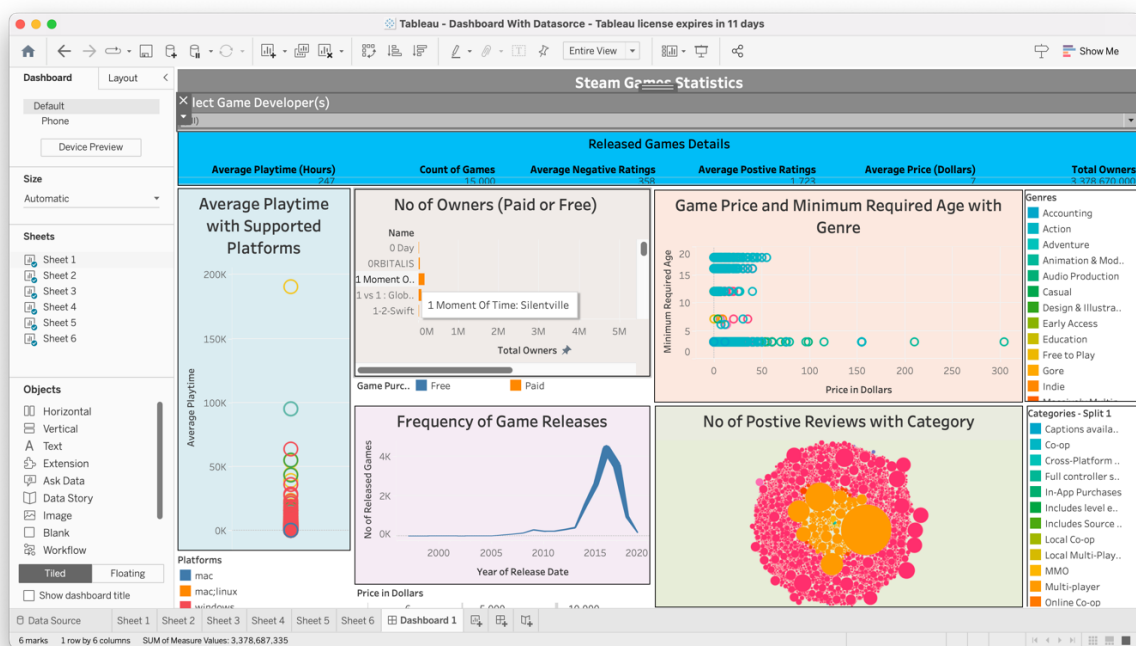

Link to Project Source Files (Tableau Packaged Workbook) with Datasets :

<https://github.com/nikhilgowda123/DataVisualizationAssignmentA3>

Step 1 – Download or clone the Repository Files into your computer

Step 2 – Install Tableau Desktop

Step 3 – Open the provided “Steam Game Statistics Dashboard.twbx” file from cloned or downloaded Git Repository. (It should automatically open in Tableau)

The dashboard should appear directly on the screen. (The .twbx already includes the cleaned dataset from which the values are shown in Dashboard).

Step 3 – Click on the Presentation mode Icon as shown in below screenshot to view the the dashboard in full screen
